Want of Vitality,

Sometimes there is a lack of vitality in large and apparently well developed frames. Hereulean sinews and muscles are not always indicative of stamina and constitutional vigor in their possessor. Health depends more upon the condition of the stomach, the liver and the bowels, which strongth is supposed to reside. All this grand animal machinery is of itself no protective against sickness and decay. Easy and perfect digestion, regular and healthy secretions, uncontaminated blood, and a regular discharge of the waste matter of the body through the intestipes, the kidneys and the pores, are the most potent safeguards against disease, the best guarantees of longevity. To promote these objects is the great end and purpose of Hostetter's Stomach Bitters. The ingredients of which the Great Tonic and Alterative is composed are taken solely from the vegetable kingdom and their medicinal virtues are not counterbalanced by the acid and poisonous elements which exist, more or less, in all the powerful mineral drugs. Sufferers from indigestion, biliousness, intermittent fevers, nervous debility or constipation, not only find immediate relief from the use of this agreeable stimulant and invigorant, but become conscious, as time wears on, of an increase of constitutiona elasticity and vital force. Labor and exposure no longer produce the same effect upon them as a new hold on life, a new reserve of physical and mental energy. This has been the experience of thousands of both sexes, and every day adds to the mass of confirmatory testimony. At this season of the year when the temperature and state of the atmosphere, exercise a peculiarly depressing influence over the minds and bodies of invalids, Hostetter's Bitters is the only tonic upon which the debilitated can rely for swift and permanent restoration.
